After successful login, you will be directed to Form Manager.

## eForm Service Form Manager

## eForm Service Form Manager

**NOTE:** Should something go wrong with the login such as a system session timeout, you may be presented with the LiveCycle Form Manager Login Screen. This screen has the same function as to old Form Manager screen above, but has a different look. It is, however, recommended that you go back to the eForm Service Login to re-enter your user credentials instead of using this screen.
